

# Exhibit 25

## Post-Construction Stormwater Management Practices Inventory

Permanent Stormwater Management Practices (Practices) are an integral part of controlling and managing stormwater once construction is complete. In order to facilitate the Post-Construction Stormwater Management Practices Inspection and Enforcement Program outlined in Exhibit 26, the Town has developed a spreadsheet and mapping system to track and monitor inspections and corrective actions for various public and private Practices throughout the Town.

The current tracking system for Practices within the Town involves the following:

- Assigning the Practice an Identification Number and Name on the tracking spreadsheet.
- Showing the Practice graphically on the Town's Stormwater Practices Map, which is a Geographic Information System (GIS) Street Map available from Rensselaer County with the Practice number overlaid on the map.
- Tracking the Inspection Date and any Actions or Comments on the tracking spreadsheet.

The Town continues to audit its List and Map of Practices to address the following:

- Verifying that all Practices within the Town are accounted for on the Stormwater Practices Map and entered in the Practices Inventory Spreadsheet.
- Implementing a more stringent Notification and Enforcement policy, in accordance with Exhibit 25, for Practices that have fallen into disrepair or are not routinely or properly maintained.

The Town is currently investigating the implementation of GIS Mapping for stormwater measures, utilities, natural resources, and other elements within the Town, and hopes to update its mapping system and procedures generally within the next two years.

Copies of the Post-Construction Stormwater Management Practices Inventory Template spreadsheet and Stormwater Practices Map are included with the Exhibit.

Town of North Greenbush

Post-Construction Stormwater Management Practices Inventory

TEMPLATE

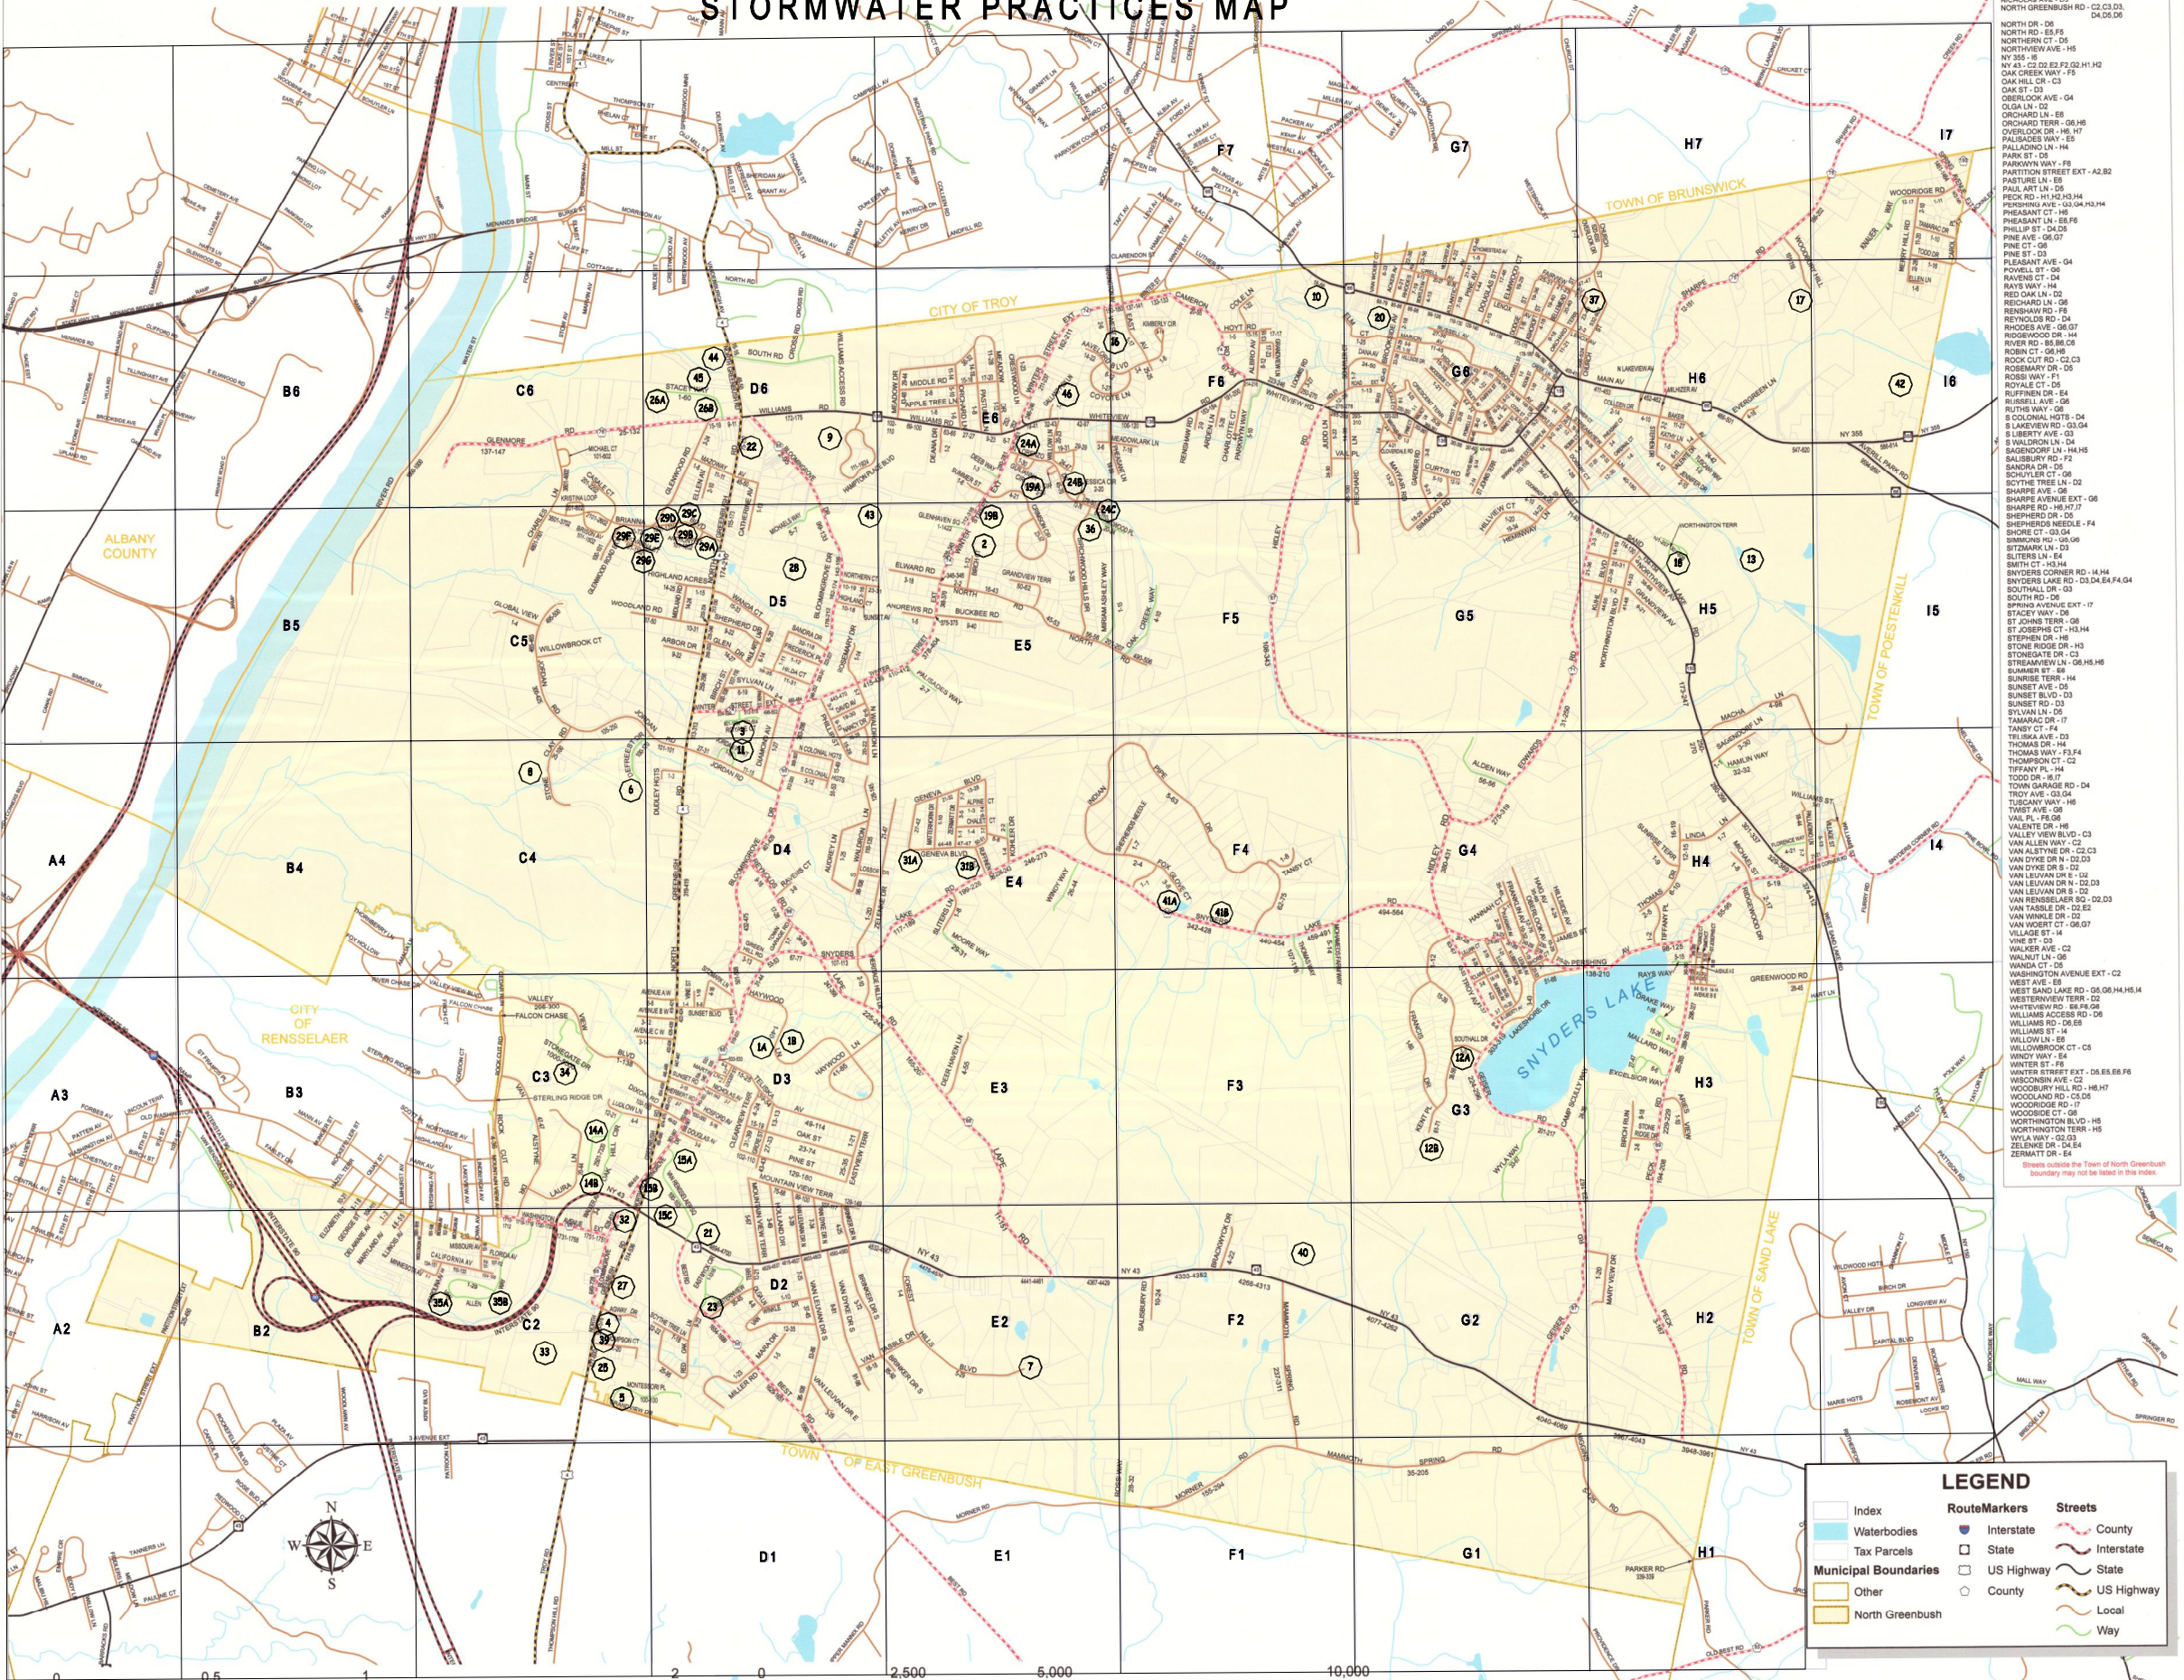

ID No.	Name/Location	Latitude and Longitude	Map Sector	Year Constr.	Maintained By	Latest Inspection	Type of Practice	Routine Required Maintenance	Routine Maintenance Performed	Additional Comments or Non-Routine Maintenance
Assigned ID #	Development Name or Address	Listed Coordinates	Ref	List Year	Private/HOA or Town	List Date	Stormwater Pond, Bioretention Area, etc.	List required maintenance action as per SWPPP documentation	Verification that maintenance performed and Practice operating as designed	Other inspection observations including areas in violation - Letter or e-mail sent to Owner?
